4. The following is a statement of reasons for allowance: The closest prior art of record, Hsieh and Toyosawa, fail to teach each and every limitation of the instant invention. Specifically, Hsieh and Toyosawa fail to teach or suggest the claimed cleaning apparatus further including stiffener frame portions having ends movable with respect to each other that either overlap or are telescopically arranged for the purpose

of increased flexibility to create a pumping/washing action in a meshed washing apparatus.

5. For at least the foregoing reasons, the claims are believed to recite patentable subject matter.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: U.S. Patent No. 5,964,533 to ZIGLAR, which discloses a flexible container with overlapping frame wire crimped together.
